HAWKPOINT TECHNOLOGIES Data when you need IT™

IT Services & Support

"They not only managed the networking, programming and systems setup for us but also coordinated with several other contractors on the project to meet our deadline... I would highly recommend HawkPoint Technologies for any project, large or small." — Helen Nowak, VP of Operations at Kurz Industrial Solutions

Move your business forward with data, network and application (DNA) IT support. You manage your business while we resolve complex data security issues along with software and network updates. Select from a variety of HawkPoint managed IT services and support.

• Managed Services
• 24/7 Support (computers, printers, servers, network, etc.)
• Technology Consulting
• IT Budgeting & Planning
• Disaster Recovery
• Security and Protection
• Cloud Service Implementation & Management
• Application and Workflow Services
• Regular Maintenance and Monitoring of your Systems
• Hardware Support & Services

• Proactive Management

Outdated or underperforming technology systems can cost you time, money and most importantly it may cost you customers. By performing regular maintenance and monitoring of your systems, we can drastically reduce the amount of technology downtime your staff will experience. We assess your company's existing systems, troubleshoot issues and anticipate future needs to help position your business for success.

Before making any decisions on your IT network, call HawkPoint Technologies to evaluate your needs. We are experienced and dedicated to keeping your computer system updated and running at peak performance so you can focus on your business. Let HawkPoint Technologies help improve your bottom line, reduce downtime and increase computer security.

Keep your businesses running with HawkPoint Technologies IT Services & Support. Delivering data when you need IT.™
